Email: david.fleitas@gmail.com

Address: Chubut - Argentina

Birthdate: 14/06/1985

Certifications

Languages:

English: Conversational level
(B1-B2)

Technical Skill:

Terraform, Docker, Kubernetes.

Servers: Windows, Linux

CLOUD: GCP, AWS, Azure

Technology: Jenkins, Java 11,

Spring MVC, Spring Batch, Spring

Boot, HTML5, CSS, JavaScript,

Angular JS, Node Js, CouchDB; SOA

XML, Rest (Json), Bash.

Database: Oracle, MySQL,

PostgreSQL

FLEITAS, NESTOR D.

DEVOPS / DEVSECOPS

Profile

Passionate about technology and a constant learner. Empathetic, proactive, and with a natural ability to teach and guide others. Background in Java development, now focused on Cloud and DevSecOps. Over the last two years I have integrated generative AI tools (ChatGPT and GitHub Copilot) into my daily workflow to accelerate development, scripting, CI/CD pipelines and Infrastructure as Code (Terraform), always with a critical eye on the security and quality of the suggested code.

Main Skills

- Cybersecurity focus
- Automation CI/CD, Infra as Code
- Software development
- Secure adoption of generative AI in enterprise environments
- Problem resolution
- Design Research and user training

Career goals

- DevOps
- DevSecOps
- AI Security / Secure adoption of Generative AI

Training

SeaCCNA: CyberOps (2024)

Hackademy:

Red Team (2025)

OSINT (2024)

DevSecOps & CloudSecurity (2022)

Fundamentals of Hacking and Defense (2022);

MundoSE:

Data Science (2023);

Devops (2022);

Udemy: Docker, Kubernetes,

Kubernetes, Airflow

Educacion IT: Linux, Java

Work Experience

DEVOPS

BANCO ITAU Chile
02/2026 - Present

- Contractor
- AWS
- GitLab CI
- Manage DevOps/DevSecOps infrastructure and platforms.
- Automate CI/CD pipelines and deployments.
- Manage infrastructure as code and automations.
- Collaborate with technical teams on incidents and improvements.
- Freelance
- Infrastructure in Azure with Terraform templates.
- Container management in Openshift 4.
- Evaluation of CNCF frameworks within the DevOps Chapter.
- Optimization of CI/CD processes in banking environments.

DEVOPS

BANCO PICHINCHA
12/2024 - 02/2026

- Contractor
- AWS
- GitLab CI
- Manage DevOps/DevSecOps infrastructure and platforms.
- Automate CI/CD pipelines and deployments.
- Manage infrastructure as code and automations.
- Collaborate with technical teams on incidents and improvements.
- Freelance
- Infrastructure in Azure with Terraform templates.
- Container management in Openshift 4.
- Evaluation of CNCF frameworks within the DevOps Chapter.
- Optimization of CI/CD processes in banking environments.

DEVSECOPS

ALLIANZ ARG
07/2024 - 05/2025

- Participated from the Security side in the corporate rollout of generative AI, assessing secure development practices, access controls and risks associated with LLM usage across development teams.
- Integrated security into CI/CD with Jenkins and SAST tools (SonarQube, GHAS).
- Managed AWS EKS microservices and Terraform IaC pipelines.
- Security training and awareness for internal and external teams.

CLOUD ENGINEER

ARKHO - CHILE
02/2024 - 07/2024

- Contractor
- Create AWS Infrastructure, with Cloudfront, S3, RDS. Backend with Node.js microservices on EKS cluster. We use CDK, CodeBuild, CodePipeline, CodeCommit. EKS, Docker

DATA ENGINEER / DEVOPS

AGEA - Clarin
10/2022 - 03/2024

- Create AWS Infrastructure, with terraform, docker and Jenkins.
- GCP Integration with Elastic Cloud;
- Pubsub; Dataflow; Airflow; Docker; Kubernetes; Java Development

TECHNOLOGY ARCH/ SRE / DEVSECOPS

Ingenia
04/2022-09/2022.

- Client: Geopagos, Participation of architectural design. Building infra on AWS, Kubernetes with Terraform, Airflow and Gitlab.
- Client: Mercantil Andina, Participation of architectural design of new platform. Building infra on Azure, AKS with Terraform, Azure DevOps and Bitbucket

DEVOPS MOBILE

Flux IT - La Nacion
07/2021-04/2022.

- Project for building infrastructure for CI / CD with Azure Devops, to build and test Android and iOS Mobile using Browserstack. On this project we performed monitoring and supervision with SonarQube. AKS in Azure Portal and Azure Devops.

SRE - DEVOPS

Equifax
02/2020-06/2021

- Site Reliability Engineer, DevOps with management of the most common tools such as Docker, Ansible, Apache Http Server, Apache Tomcat 7 and 8, monitoring and supervision with Nagios Core and implementation of CyberARK, Apache Web Server, Bash Scripting, Python scripting, load balancing, handling and configuration of Jenkins, Terraform and kubernetes in GCP and AWS.

SOA DEVELOPER & CONFIG. MANAGER & TECHNICAL REFERENCE:

Telecom
03/2018-12/2022

- Analysis and development of functional and technical documentation, Programming in SOA Architecture, Designing new services, Architecture maintenance with Java connectors, Xquery Transformations, Datapower
- Ide: JDeveloper, OSB 12c. OSB 11, AquaLogic 9.
- Server Linux. Tools: Jenkins, Release Automation. Jira, Confluence, Stash, Maven

JAVA MIDDLEWARE DEVELOPER - SOA DEV:

HSBC Bank
10/2017 - 06/2018

- Analysis and development of functional and technical documentation, Programming in JAVA
- Designing new services, Architecture maintenance with Java connectors, SOA Integration.
- Ide: Eclipse. RTC, ESB IBM

JAVA DEVELOPER IN ARCHITECT AREA:

Credicoop Bank
10/2014 - 09/2017

- Analysis and development of functional and technical documentation, Programming in JAVA,
- Designing new services, Architecture maintenance with Java connectors.
- Ide: Eclipse. Tomcat,JBoss. Open Languages: Angular, NodeJs, JavaScript, Mongo DB, Couch DB. Jenkins, ESB IBM, ElasticSearch, Logstash, Kibana

JAVA SOA – OSB (ORACLE) CONSULTANT:

Telefónica- Movistar
08/2013 - 10/2014

- Analysis and development of functional and technical documentation, Programming in JAVA MDW.
- Ide:
- Eclipse, OEPE, JDeveloper. Tomcat. Oracle Service Bus (OSB), Weblogic.
- Integration of commercial modules using OSB, BPel, WebServices, Spring, EJB.
- Migration Support, Incident Management.
